<https://www.linkedin.com/in/dm360/>

Advisor: Dr Pedro Rey

Research Group: GREF

Research Interests:

- Behavioural Economics
- Organisational Psychology
- Strategy
- Teamwork

Short Bio:

Daniel Martin is a Ph.D. candidate in Behavioural Economics at Esade Business School. He holds an MRes in Management Science from Esade, a MSc in Human Decision Making from Cranfield University, and a BEng in Aeronautical Engineering from Loughborough University. Previously, Daniel was senior management consultant, a commercial helicopter pilot, and a senior lecturer in Aviation Management.

His research interest is centred around productivity, collaborative problem-solving and teamwork. More specifically, his research fuses recent developments in personality analysis, digital communication, machine learning, natural language processing, and team performance. Daniel is looking for other researchers to collaborate on projects within these areas.
