Advisor: Dr Jordi Nin Guerrero

Research Group: JUICE

Research Interests:

→ Complex Networks
→ Supply Chain
→ Stochastic Processes
→ Data Science

Short Bio:

He is a Ph.D. candidate in the Department of Operations, Innovation, and Data Sciences at Esade. His research interests are complex, economic and supply chain networks. Furthermore, he has been linked to Esade since 2020 as a Research Assistant of the research group on Judgements and Decisions in the Marketplace (JUICE), and on a Teaching Assistant basis in Big Data in Finance since 2021.

He holds a B.Sc. in Physics from the University of Barcelona (UB) and an M.Sc. in Stochastics and Financial Mathematics from the Vrije Universiteit Amsterdam (VU). He completed his education with the MRes in Management Science at Esade.

Before joining Esade on a full-time basis, he worked for four years as a Data Analyst at hkp/// group in Amsterdam and Frankfurt. He has spent part of his career working on data consulting for different companies and sectors of activity, such as airlines, law firms, and industry.
