## Research Interests:

- Sustainable/ESG Investing
  - Information in Financial Markets
- 

## Short Bio:

Sahand is a Ph.D. candidate in Management Sciences at Esade Business School. His area of specialization is Finance. He also holds MBA (Majoring in Finance), MSc in Construction Management, and BSc in Civil Engineering, all from Sharif University of Technology, Tehran, Iran. He has 7 years of experience in the field of project management and holds PMP (Project Management Professional) certificate from PMI (Project Management Institute).

His research interest lies mainly in the field of sustainable/ESG investing, and more specifically, on the effect of a firm's ESG behavior on its financial performance. He is also interested in the role of information in financial markets and firms' decision making, and in the feedback-loop between the financial markets and the real side of the economy.
