

## Dalia Silberstein

---

Manager, Social Impact Lab & Impact Community

### Education

- INSEAD, Social Entrepreneurship Program (ISEP), Singapore
- University of Buenos Aires — Licentiate, Psychology (equivalent to MA).

### Areas of interest

Social entrepreneurship, impact technology (tech for good), social innovation, impact investing, impact measurement and management, sustainability.

### Biography

Dalia is leading the Social Impact Lab - a specialized program for students who wish to engage with the social impact field, and the Impact Community - a network of students, practitioners, professors, and researchers willing to leverage their business and financing acumen to generate societal impact. She is a researcher at the Center for Impact Investment and Entrepreneurship, College of Management Academic Studies of Israel, researching Impact Tech Startups. Serves as a mentor for impact accelerator programs, such as the 8200 Impact accelerator (the first Impact Tech acceleration program in Israel); Pears Program for Global Innovation (connects Israeli innovation and developing world challenges); and F-LANE Accelerator for Female Empowerment Program (by Yunus Social Business and Vodafone).

She co-created "The Sprint for Social Impact" -an acceleration program for impact-driven organizations; and Nomada Impact - an organization that created the "Impact Missions" along with Sistema B (B Corps): Learning experiences at notable impact ecosystems around the world.

Co-founded and former Director of the Latin American University Network for Social Entrepreneurship. Thought courses on Social Entrepreneurship, and Tech-based entrepreneurship with social impact, at Garavito Colombian School of Engineering and El Bosque University in Colombia, among other universities. Led the first Master's Program on Social Entrepreneurship in LatAm at the Catholic University of Salta in Argentina.

Worked as an adviser of The National Council of Science and Technology, Government of Mexico, leading the project "Technology for Social Inclusion"- annual conference and award focused on the use of science and technology in the achievement of the SDGs.

Early in her career, she worked for the Social Enterprise Knowledge Network SEKN (a partnership of leading business schools focused on research and dissemination of social entrepreneurship); and for Simmons College in Boston - leading the diversity, multicultural marketing, and community outreach initiatives.
