

Announcement

Faculty Position in Data Sciences and Artificial Intelligence ESADE, Department of Operations, Innovation, and Data Sciences

Assistant Professor (Research Track)

ESADE is seeking to appoint a faculty member in any specialty area within the field of **Data Sciences and Artificial Intelligence**. The successful candidate will join the school at its Barcelona campus in September 2020.

Candidates must have completed a PhD. In addition, they must demonstrate a trajectory of scholarship in the area of specialization, and the potential and motivation to publish high quality, impactful research in the leading academic journals. Applied research and transference activities related in areas related to business or management will be highly considered. Finally, the candidate must demonstrate a foundation upon which a successful teaching career across the school's diverse portfolio of undergraduate, postgraduate, and executive education programmes can be developed.

The Department of Operations, Innovation, and Data Sciences at ESADE is a growing and dynamic group focused on tackling issues that concern the study of methodological issues related to Operations Management, Innovation, Information Systems, Technology, Statistics, Applied Mathematics and Artificial Intelligence. Under this broad motivation, our research spans different orientations and methodologies, placing as much importance on the theoretical research as on the empirical approach. From the standpoint of teaching, we constantly strive to improve the classroom experience and translate our research interests and findings to ideas and advice that is of practical use.

ESADE, which comprises a business and a law school, is a member of the Ramon Llull University. The stated mission is "to educate highly-professional individuals aware of their responsibilities as national and global citizens, sensitive to issues of solidarity and social justice, and keen to engage in collective projects". The school currently operates campuses in Barcelona and Madrid, and it has several collaboration agreements with renowned international educational institutions.

The position is tenure track. Decisions about contract renewal and promotion are based on individual performance. The salary and teaching requirement tied to the position are competitive. It is not a requirement to speak Spanish, as the school is fully international. However, for non-Spanish-speaking candidates language support is provided, if desired.

We will consider applications on an ongoing basis starting on 11 November, 2019 until the position is filled. Interested parties should send at least the following:

- Cover letter
- Curriculum vitae
- Three reference letters
- One current paper
- Any available teaching evaluation

Please send your materials in a unique pdf to: facultypositions@esade.edu.
